## 13. FLAGS

- 13.1. Penalties for ignoring flags and marshals orders defined in Sporting Regulations Appendix 1, paragraph #6.
- 13.2. Meaning of the flags, shown at the main marshal post – start/finish line.

<p><b>National flag</b></p> <p>This flag may be used to start the race. The starting signal should be given by lowering the flag which, for standing start competitions, should not be raised above the head until all cars are stationary and in no case for more than 10 seconds. Should the national flag not be used for any reason, the color of the flag (which should not cause confusion with any other flag described in this Chapter) should be specified in the Supplementary Regulations.</p>	
---	--

<p><b>Black and white chequered flag</b> This flag signifies the end of any practice session or race. Will be waved from behind the first line of protection until all competing cars have crossed the control line.</p>	
<p><b>Black flag</b> This flag could be used to inform the driver concerned that he must stop at his pit or at the place designated in the supplementary or championship regulations on the next approach to the pit entry. If a driver fails to comply for any reason, this flag should not be shown for more than four consecutive laps. The decision to show this flag rests solely with the Stewards, and the team concerned will immediately be informed of the decision. This flag should always be shown together with the number of the participant.</p>	
<p><b>Black flag with an orange disc 40 cm in diameter (Technical flag)</b> This flag could be used to inform the driver concerned that his car has mechanical problems likely to endanger himself or others and means that he must stop at his pit on the next lap. When the mechanical problems have been rectified to the satisfaction of the chief scrutineer, the car may rejoin the race. This flag should always be shown together with the number of the participant.</p>	
<p><b>Black and white flag divided diagonally</b> This flag could be shown once only and is a warning to the driver concerned that he/she has been reported for unsportsmanlike behavior. These last three flags (in 15.4, 15.5. and 15.6.) should be shown motionless and accompanied by a black board with a white number which should be shown to the driver whose car's number is displayed. The flag and number may be combined on a single board.</p>	

13.3. Meaning of the flags, shown at the marshal posts throughout the race track:

<p><b>Yellow flag</b> This is a signal of danger and should be shown to drivers in two ways with the following meanings:</p> <ul style="list-style-type: none"> <li>a) Single waved Reduce your speed, do not overtake, and be prepared to change direction. There is a hazard beside or partly on the track. It must be evident that a driver has reduced speed; this means a driver is expected to have braked earlier and/or noticeably reduced speed in that sector.</li> <li>b) Double waved Reduce your speed significantly (<b>60 km/h</b>), do not overtake, and be prepared to change direction or stop. There is a hazard wholly or partly blocking the track and/or marshals working on or beside the track. During free practice and qualifying, it must be evident that a driver has not attempted to set a meaningful lap time; this means the driver should abandon the lap (this does not mean he has to pit as the track could well be clear the following lap). Yellow flags should normally be shown only at the marshal post immediately preceding the hazard.</li> </ul>	 
<p><b>Yellow flag with red stripes</b> This will be shown motionless to inform drivers that there is a deterioration of grip due to oil or water on the track in the area beyond the flag. This flag should be displayed, for at least (depending on the circumstances) 4 laps unless the surface returns to normal beforehand. It is not, however, necessary for the sector beyond where this flag is being shown to show a green flag.</p>	
<p><b>Red flag</b> This flag could be waved at the start line when it has been decided to stop a practice session or the race. Simultaneously, each marshal post around the circuit should also wave a red flag. When the signal to stop is given:</p> <ul style="list-style-type: none"> <li>a) during practice, all cars shall immediately reduce speed and proceed slowly back to their respective pits;</li> <li>b) during a race, all cars shall immediately reduce speed and proceed slowly to the red flag line – Start/ Finish line;</li> <li>c) overtaking is forbidden and drivers should remember that race and service vehicles may be on the track, the circuit may be totally blocked because of an accident and weather conditions may have made the circuit undriveable at racing speed;</li> <li>d) if the race is stopped, drivers should remember that speeding is pointless because: <ul style="list-style-type: none"> <li>- the classification of the race or the order of the re-starting grid will be established</li> </ul> </li> </ul>	

<p>from a point prior to the red flag being shown and according to the regulations of the competition; - the pit lane exit will be closed. All cars shall stop in order before the red flag line – Start/Finish line until informed whether the race is to be resumed or ended and given the appropriate directions by marshals according to the regulations of the competition;</p> <p>e) resuming after red flag will be launched behind Safety Car in peleton one behind another;</p> <p>f) Warm-up/Formation lap will be counted in race distance;</p> <p>g) resuming the race will be given with green flag signal;</p>	
<p><b>Blue flag</b></p> <p>This flag will normally be waved, as an indication to a driver that he is about to be overtaken. It has different meanings during practice and the race.</p> <p>At all times a stationary flag should be displayed to a driver leaving the pits if traffic is approaching on the track.</p> <p>During practice a faster car is close behind you and is about to overtake you.</p> <p>During the race the flag should normally be shown to a car about to be lapped, if the driver does not seem to be making full use of his rear-view mirrors. When shown, the driver concerned must allow the following car to pass at the earliest opportunity</p>	
<p><b>White flag</b></p> <p>This flag should be waved and is used to indicate to the driver that there is a much slower vehicle on the sector of track controlled by that flag point</p>	
<p><b>Green flag</b></p> <p>This should be used to indicate that the track is clear: it should be waved at the marshal post immediately after the incident that necessitated the use of one or more yellow flags. It may also be used, if deemed necessary by the Clerk of the Course, to signal the start of a warm-up lap or the start of a practice session.</p>	

- 13.4. In case competition is held on the race track which is equipped with the digital flags, it is compulsory to announce during Driver`s briefing which flag signals (physical or digital) are main and which are supportive.

#### 14. GENERAL SAFETY REGULATIONS AND PENALTIES

- 14.1. All the imposed fines shall be paid before the next race of the Competitor, but no later than within an hour of imposing the fine.
